Charles Darwin was born in Shrewsbury, England on February 12th, 1809. His father Robert Darwin was a doctor. Charles' mother Susannah Darwin was the daughter of the famous potter, Josiah Wedgwood. She died when Charles was only 8 years old.

Young Charles was intensely interested in the natural world from an early age. But his father wanted him to be a doctor. At age 16, Charles was sent to study medicine at the University of Edinburgh. But he did not like it. He found medical operations especially horrible. He later went to Cambridge University. His father now hoped that Darwin would become a clergyman. But at Cambridge, Charles continued to follow his own interests. There, he met John Henslow, a plant scientist and clergyman. The two became friends.

### **Evening program**

Paul: What are you doing this afternoon? Are you going to the conference, Jane?

Jane: No, I am not. Jamie is going. I am going shopping. But I am free later this evening. What about you, Paul?

Paul: I don't know. I have some work to do and tomorrow I will have to travel to Cambridge.

Jane: How long are you staying there?

Paul: Just for the day. I'm coming back tomorrow evening.

Jane: Why don't we have something to eat before you start work this afternoon?

Paul: That's a good idea. I am starving. By the way, my favourite restaurant is near here. Shall we go there?

### Szünet

Paul: I am a regular customer here.

Jane: You are, are you? Well it looks nice. It is self service, isn't it?

Paul: Oh, yes! Let's have a look at the menu. They have a big choice of dishes.

Jane: I think I'll have something light. Perhaps fish with mixed vegetables.

Paul: I had some yesterday. Now I'll choose pork chops with roast potatoes and peas. What will you drink?

Jane: I glass of orange will do. And you?

Paul: A glass of water for me.

Jane: Where do I have to pay?

Paul: Just go ahead, the cash desk is there.

### Szünet

Paul: Now. Shall we go out to the cinema tonight?

Jane: Well, there is nothing interesting on at the moment. What about a concert. There is a good one, Mozart and Brahms. It's on at the Festival hall at 7. Shall we go to that?

Paul: Fine with me. Shall we meet outside the Hall at 6.30?

Jane: Great! See you then. I am off to the shops. Bye.

Paul: Bye!

### **Cabin fever**

Too much time inside the house using a computer or watching television can cause someone to get cabin fever.

A cabin is a simple house, usually built far away from the city. People go to a cabin to relax and enjoy quiet time. Cabin fever is not really a disease, however people can experience boredom and restlessness if they spend too much time inside their homes. This is especially true during the winter when it is too cold or snowy to do things outside.

Often children get cabin fever if they cannot go outside to play. So do their parents. This happens when there is so much snow that schools, and even offices and stores are closed. Some people enjoy spending a lot of time in their homes to make them nice places to live. This is called nesting or cocooning. Birds build nests out of sticks to hold their eggs and baby birds. Some insects build cocoons around themselves for protection while they grow and change. Nests and cocoons provide security for wildlife, so people like the idea of nests and cocoons too. The terms cocooning and nesting became popular more than twenty years ago. They describe people buying their first homes and filling them with many things.

### **Watching the box**

In 1996 the United Nations decided to make the 21st of November World Television Day and that's tomorrow. So for this week's podcasts in english.com I'm talking to Claire about the telly.

- Hello Claire!

- Hello!

- So Claire, you have just finished work, haven't you? Are you going to go home and watch the TV?

- Yeah, I think I'll put the telly on and see if there is some good series or maybe a film on. That, that's the sort of thing I usually watch.

- Okay and how often do you watch TV?

- Well, I usually have it on every night but I might not be watching it I might just have it on in the background. But I usually check to see what's on later if there is something interesting then, then yeah ... I'll sit down and watch it.

- And are there some days perhaps that go by when you don't watch any television at all?

- Yeah, definitely! I spend quite a lot of time knitting and I can't knit and watch TV at the same time. So, ... yeah, definitely!

- Okay! And you say you watch TV in the evenings at home. Do you ever watch it in the morning?

- Yeah, I put the news on while I'm having my breakfast just to find out what is going on in the world.

- Okay, well there is a whole range of programs on TV obviously, so that's the next question. What type of programs do you usually watch?

- Well, like I said, films, if there is a film, a good film on I like to watch that. I like detective series, there is a really good detective series I like which is based in England and that makes me feel very nostalgic because I don't live in England so it makes me think about home.

- Okay, so films, detective series ...

- And...

- ...you like watching the news, but what don't you like watching?

- Well, I'm not really into sports.

- Okay, and I think one of the most popular types of television program is certainly in England and the UK are cookery shows. Do you like watching cookery shows?

- No, it doesn't interest me in the slightest.
